PAINTS**

DIRECTION FOR USE

SURFACE PREPARATION:

Ensure that the surface to be painted is free from loose paint, dust, grease and algae, by sand paper 180 and wire brushing, cleaning with water. Wipe Clean. Walls may have imperfections such as holes, dents and cracks. Use Crack Seal for filling into both interior and exterior vertical surfaces.

PRIMER:

Apply 1-2 coat of Active Premium Primer Wall Primer with thinning 1 liter of paints with 300 to 400ml water. With a drying time of 6-8 hours after each coat.

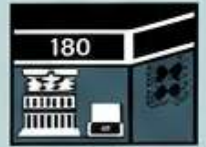

WALL PUTTY:

For Interior, Smoothen the surface by filling dents with Apply 2 coat of Wall Putty with 6-8 hours of drying time. For enhanced waterproofing "Water Proof Putty" is recommended. Sand with sand paper 320/400 and wipe clean.

TOPCOAT: Apply 2 to 3 coat of Interior/Exterior emulsion with recommended dilution ratio as per finishing coat with a drying time of 6-8 hours after each coat. For Deep Shades apply an additional coat of Paint.
